FOREWORD

For more than twenty years, your cataloguer has experienced thrill after thrill—the satisfying thrills of obtaining, cataloguing and selling outstanding collections and famous rarities. It may have been the Guttag collection or the Menjou collection. It may have been the 1822 half eagle or the 1804 silver dollar, the Kohler bar or the Quintuple Stella.

Indeed, we of the Numismatic Gallery have enjoyed good fortune in these respects. One thing however, seems to have escaped us—good paper money. In all the years no fine collection of paper money came our way. In fact, except for the Grinnell Collection, no paper money collection of any consequence has come on the market. It was inevitable that one day a splendid collection would come up for sale. We are grateful that this long-coveted opportunity was entrusted to us.

This \$50,000.00 collection includes almost everything in the \$1.00 to \$100.00 denominations. Rare signature combinations, low numbers, uncut sheets, etc.—all are included to please the collectors of one of the most picturesque and historically interesting phases of Numismatics.

Such a wealth of paper money would suffice to make this sale one to be remembered but we have still more to offer. The B. A. Talmadge Collection of Quarter eagles which lacks but very few coins for completion has been included in this extraordinary sales catalogue.

Yes, this has been a thrilling task. Now there remains for you the thrill accompanying acquisition of elusive coins and banknotes.

A. KOSOFF.

NATIONAL BANK NOTES

First Charter Period

Issued under Acts of Congress, Feb. 25, 1863
and June 3, 1864

Denominations issued, \$1, 2, 5, 10, 20, 50, 100,
500 and \$1000.

Under the National Banking Act charters were granted to banks permitting them to issue bank notes to an amount limited to 90% of the par value of government bonds deposited by the bank with the Treasurer of the United States. The notes for all banks were of the same design, the only variations being on the obverse, the name and address of the bank and the date of the charter and on the reverse, the coat of arms of the State in which the bank was located. Designs for the \$1, 10, 20, 50 and \$100 notes were made by the American Bank Note Co. The \$2, \$500, and \$1000 designs were by the National Bank Note Co. and the \$5.00 note was designed by the Continental Bank Note Co. All notes bear the signatures of the Register and the Treasurer, the Treasury Seal and the number of the note. The reverses were green and printed in the center in black were copies of historical paintings in the Capitol at Washington, making a truly beautiful series. On both ends are upright ovals, the right containing the American eagle and the left the State Arms.

Notes are described as follows:

SET SMALL CENTS

1325—**Complete Set** flying eagle and Indian Head Cents 1856-1909 including the mint marks. One of the most desirable and evenly matched uncirculated sets we have seen. Many of the coins were acquired at considerable premium above catalogue prices. Collectors of this series realize that red uncirculated Indian Head Cents are rarer than the proof specimens. We would not accept an order to supply such a choice set for less than \$750.00 although it catalogues for something less than \$600.00. Mounted in National Coin Album.
